MEMORANDUM FOR THE RECORD

SUBJECT: FMSAC Quarterly Review -- First Quarter FY69

1. Mr. Brandwein indicated that he was less than pleased with the possibility, however remote, of having an FTD Liaison Officer in FMSAC.

2. Two contracts which would have been in the first quarter were pre-funded-- [] The [] contract has the same money value as last year but the product is being eroded because of increased expenses in [] In effect, for the same money as last year, we have lost about [] of effort. Other work in the same general area funded by ADCA and DRR&E may be of value to FMSAC and therefore some of the slack caused by increased expenses may be made up indirectly.

3. FMSAC is less than fully satisfied with the product from [] If there should be a substantial reduction (in the area of [] for FMSAC, they would probably eliminate this contract. There has been, however, some shift from the R&D area to space systems area [] and the talent applied to [] is getting a little better. Effort on this contract is almost all on space problems with little or no naval missile activity being done now.

25X1

25X1

4. The only contract forecast for the first quarter is for personal services of an [] specialist in space payload analysis. FMSAC is trying to eliminate personal services contracts and may be able to get this specialist as a full time staff employee.
